To Whom It May Concern:

Re: Aqua 8 St George Street Gosford NSW 2250

This is to certify that the development site has been Feng Shui assessed by Chinese Feng Shui expert Mina R Zheng from Feng Shui Australia.

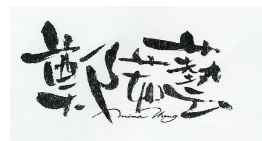

The site has good natural surroundings. The setting demonstrates many positive aspects for the residents who will live there.

The North direction has good energy, it enhances wisdom, knowledge and academic achievement for the residents. The building has a good orientation. The entry faces east, it represents power and prosperity in the current period. The water energy is beneficial for the residents to find more opportunities, develop their potential, gain success, enhance reputations, from foresight, creativity and action.

The Qi flow of the site is mainly positive. The developer has used feng shui elements for the site to maximize the positive and mitigate the negative aspects, in order to create a prosperous and harmonious living environment.

Yours sincerely,

Mina R Zheng
